("BATM" or "the Group")**

BATM awarded \$4m follow-on cyber contract from Government defence department

BATM (LSE: BVC; TASE: BVC), a leading provider of real-time technologies for networking solutions and medical laboratory systems, announces that it has been awarded a \$4m cyber security contract from its long-standing government defence department customer. This additional follow-on order is expected to be delivered in the second half of 2020.

The order is for the delivery of additional hardware and software cyber security products as the customer rolls out the Group's solution to encompass further employees. Following this latest order, the total contracted revenue awarded to the Group to date by this customer for this cyber solution is over \$18m.

Dr Zvi Marom, Chief Executive Officer of BATM, said: "We are delighted to receive another order from this government defence department. The recurring contracts show the customer's satisfaction with our cyber security products and services and demonstrates the benefits that our solutions bring. We believe that there are unique advantages to our security systems and we look forward to continuing to expand our customer base for our cyber security offering."
